

## A unique model, 3 levels of firmness

LAB mattresses have an exclusive fabric that ensures permanent freshness and hygiene due to the combination of 3D fabric, ventilated areas, and cold fibres woven on the fabric. Cool, breathable, and hygienic sleep.

LAB is also built with zippers and detachable covers. Remove it easily and dry clean to keep it always as brand new.

**Multispring® 1500 core**  
with more than 1500 pocket and micro pocket springs inside. Adaptability and durability guaranteed.

**Hidden zipper** on detachable cover to ease washing. Cells 3D mesh to keep air flow throughout the other materials and fabrics.

**Xtra-Cool.** Ultimate Exclusive Fabric to keep the sleep surface always cool. The combination of fibers with cooling properties with 3D mesh, allows an optimal breathability to get a cool, dry and hygienic sleep.

## Soft, medium, or hard choice

Hybrid technology combining thousands of Multispring® pocketed springs base, with three different last generation foams on top.

### Calm

|                        |  |
|------------------------|--|
| <b>Firmness (1-10)</b> | 4  |
| <b>Thickness</b>       | 28 cm  |
| <b>Core</b>            | 1254* Multispring® pocket spring                       |
| <b>Fabric</b>          | Xtra-Cool<br>75% PES - 25% PE<br>660 Gr/m <sup>2</sup> |
| <b>Comfort</b>         | BlueMoon 40 Kg/m <sup>3</sup> - 50 mm                  |
| <b>Covers</b>          | Removable and washable                                 |
| <b>Warm-Up</b>         | Included   |

**Blue Moon** is a high resilience and hydrophilic foam, which provides great flexibility and the highest level of breathability.

### Sane

|                        |  |
|------------------------|--|
| <b>Firmness (1-10)</b> | 6  |
| <b>Thickness</b>       | 28 cm  |
| <b>Core</b>            | 1254* Multispring® pocket spring                       |
| <b>Fabric</b>          | Xtra-Cool<br>75% PES - 25% PE<br>660 Gr/m <sup>2</sup> |
| <b>Comfort</b>         | Latex 70 Kg/m <sup>3</sup> - 50 mm                     |
| <b>Covers</b>          | Removable and washable                                 |
| <b>Warm-Up</b>         | Included   |

**Latex.** With vegetable origin, latex is a milky emulsion made by the sap extracted from some plants. It stands out for its excellent elasticity, has water repellent features, and is a perfect insulator of peak temperatures and electricity.

### Solid

|                        |  |
|------------------------|--|
| <b>Firmness (1-10)</b> | 8  |
| <b>Thickness</b>       | 28 cm  |
| <b>Core</b>            | 1254* Multispring® pocket spring                       |
| <b>Fabric</b>          | Xtra-Cool<br>75% PES - 25% PE<br>660 Gr/m <sup>2</sup> |
| <b>Comfort</b>         | Visco MOON 50Kg/m <sup>3</sup> - 50 mm                 |
| <b>Covers</b>          | Removable and washable                                 |
| <b>Warm-Up</b>         | Included   |

**Visco Moon.** Viscoelastic foam firm and high breathability (open pore) that manages to cause feeling of weightlessness without causing hot.
